The fund is now a little under \$120,000, with \$30,000 more needed to buy the site and build the hall. It is probable a letter will be addressed to business men generally, asking that they subscribe to the fund or increase their former subscriptions, and setting forth that general business has so improved that it is seemingly impossible to secure committees which will devote the necessary time to canvass the town for individual subscriptions. hall fund. The simple fact alleged is that he got hurt, but it takes two pages of closely typewritten legal verbiage to state it. There was a board missing out of the sidewalk, but the fact is emphasized and aggravated by the cumulative statement that the board was absent, missing, lost and gone, which makes the offense much graver.

The injuries received were also much severer than one might-expect from a fail through a hole in the sidewalk. Mr. Fagg's leg was not merely bruised, but the ligaments, tendons and sinews were wrenched, torn, lacerated and sprained, and the flesh greatly bruised and mangled. The Case Develops a Shocking Story of the Disposition of a Baby's Body-The Hearing Will Take Place To-day.

sician, as prescribed by the city ordinances

He was not gone long. When, however, he reached the undertaker's he discovered the body was gone. He returned to the house and claims he thought it advisable to make no entry of either the birth or the death of the child. The mother had paid the doctor for his services and gone. The matter was brought to the notice of the police yesterday by Fred Boley, clerk of the health department. Several days ago a young woman called on him and inquired if Dr. Howard had entered the birth and death of a male child, born August 21. The record did not show it. Boley investigated and could find no trace of the baby's burial certificate. The woman said she was the mother of the baby and after leaving Boley's office went to Dr. Howard's office and inquired why he had withheld the record of the baby's existence. Howard became frightened and after consulting with Dr. Wilkins the latter volunteered to make the certificates if it was not too late. Boley and City Physician Coffin detained Wilkins when he appeared at the former's office and Dr. Howard was arrested by Officer Schulz as he stood at Fifth and Grand avenue waiting for Dr. Wilkins to appear. Dr. Wilkins claims he thought the birth regular and that Dr. Howard had wilfully neglected his duty in the matter. Dr. Howard claims he did not think it necessary to record the birth or death of a child of premature birth. The police say there was a criminal operation and that Dr. Howard, in need of a specimen, placed the body in alcohol. After his arrest Dr. Howard stated that someon had entered his office yesterday morning and left a specimen such as the Sailor baby would have made. He did not know who left it. It will be introduced in evidence to day.

who left it. It will be introduced in evidence to-day.

"Is it a usual thing for people to be going about leaving such specimens in doctor's offices?" was asked.

"No, it is not," replied Dr. Howard.

"Did it ever occur to you before?"

"No, sir, and it's a funny thing and I can't explain it," and the doctor laughed.

There are hais in the Seventh ward which would accommodate Alderman Simonds or a mass meeting of his present followers, but it is necessary for a meeting of park supporters to be held in the open. Speeches will be made by the representative citizens of the ward,

The city physician stated last night that Dr. Howard is not a physician, but has been practicing medicine in Kansas City for several years. He has attended cases and Dr. Wilkins has reported them to the health department, according to Dr. Coffin. When Dr. Coffin learned that Dr. Wilkins had not seen the Sailor case, but had made a report of it to the health department, he caused his arrest.

Undertaker Carroll stated that about August 22 a man, who he understood afterwards was Dr. Howard, made arrangements with one of his employes to bury a baby which he said he would deliver in his buggy. He called later and said the body had either been stolen from the buggy or had dropped out on the way to the morgue.

Warrants were sworn out before Police Judge Gifford yesterday for the arrest of Dr. Charles Howard, of 1626 McGee street, on charges of failing to register as a phyand for falling to report the birth and death of a child, and for the arrest of Dr. W. F. Wilkins, of 2454 Vine street, for unlawfully making a birth certificate. The warrants were served by the police and the doctors gave bond for their appear-

ance in police court to-day.

Dr. Wilkins has an office alone at 502 Temple building. He is interested with Dr. Howard and Dr. A. P. Ormsby in another office at 1431 Grand avenue.

The trouble leading to the arrests occurred during the latter part of August. A rather genteel looking man appeared at Dr. Howard's house one night with a woman he said was his wife. The woman said her name was Mrs. Minnie Sallor and she was soon to become a mother. Dr. Howard accommodates patients of this character at his house and Mrs. Sallor was given a room. August 21 the baby was born, being, according to Dr. Howard's statement, a premature birth. It lived about 48 hours. When it died, Dr. Howard, according to his statement, to avoid publicity arranged with an undertaker to take charge of the body after he (Dr. Howard) had delivered it with his own vehicle to the undertaker. Dr. Howard claims he placed it in his buggy and started for the undertaker's. At Thirteenth street and Grand avenue he entered a saloon and had a drink. He was not gone long. When, however, he reached the undertaker's he discovered the body was gone. He returned to the house and eleging he thought it advisable Dr. Howard and Dr. A. P. Ormsby in an-
